EXCITING CONTEST.

PHILADELPHIA, PA., June 4.—Philadelphia defeated Pittsburg to-day in the most exciting game played here this season. In the ninth inning, with the score 4 to 3 in favor of the home club, the visitors scored three runs, on singles by Merritt and Hawley, and a home-run by Smith. Philadelphia batted Hawley freely in its half of the ninth, and this, with two bases on balls, resulted in three runs, being tallied. Sullivan scored the win-EXCITING CONTEST.

BUTLER BOND BILL.

SHORT WORK MADE OF IT IN WAYS AND MEANS COMMITTEE.

Only Two Members of the Hody, Messrs. Wheeler and McMullin, in Favor of It-Majority Report Against It.

WASHINGTON, D. C., June 4.-The House Ways and Means Committee to day made short work of the Senate bill prohibiting the further issuance of bonds without the consent of Congress When the committee met this morning a motion made yesterday by Mr. Wheeler, of Alabama, to report the bill favorably to the House was pending. Before action was taken on this motion, Mr. Dingley (Republican), of Maine, chairman of the committee, read to the members, all of whom were present (excepting Mr. Crisp and Mr. McLaurin), a report, which he had drawn up on the bill, in anticipation of to-day's meeting. This report was long, and its reading consumed twenty minutes. It is described in a general way as a criticism of the administration for its insistence that the present tariff law will furnish sufficient revenue for the necessities of the government. It contained also a sufficient revenue for the necessities of the government. It contained also a criticism of the Senate for its failure to concur in the revenue measure sent to that body early in the session, and expressed regret that the Senate had done nothing to relieve the situation; but had, on the contrary, intensified it.

Mr. Dingley's conclusions were that the adoption of the bond bill by Congress would result in panic, ruin, and bankruptey.

would result in panie, rous, and causeuptey.

When Mr. Dingley finished, Mr. Grosvenor (Republican), of Ohio, moved to amend Mr. Wheeler's motion by substituting the word "adversely" for "favorably," and on this he demanded the yeas and nays. Those who voted to report the bill to the House adversely were Chairman Dingley, and Messrs. Payne of New York, Dalzell of Pennsylvania, Hopkins of Illinois, Grosvenor of Ohio, Ruszell of Connecticut, Dolliver of Iowa, Steel of Indiana, Johnson of North Dakota, Evans of Kentucky, and Tawney of Minnesota, Republicans; and Messrs, Turner of Georgia, and Cobb of Missouri, Democrats. The two negative votes were Democrats. The two negative votes were cast by Messrs. Wheeler of Alabama, and McMillin. of Tennessee. Mr. Hopkins stated that if the minority

heir report opportunity would be given

them. Ir. Wheeler replied that he regarded Mr. Wheeler replied that he regarded the proposition as so important that it should be brought before the House without delay. He stated that he would endeavor to prepare a report reflecting the views of the minority this afternoon. In this report Mr. Wheeler will show that the first expression of the Democratic platform of 1576 demanded the repeal of the resumption act. He also will assert that, while the integrity of the present Executive is unassailable, the power to issue bonds is greater than ought to be vested in any Chief Magistrate, and that the responsibility for such matters should divided with Congress,

Dingley's majority report is still inuntil to-morrow, and possibly not

NEW YORK, June 4.- The dulness at the Stock Exchange continues, the sales to-day footing up only 112,291 shares, of which 24,900 were American Sugar, 14,800 Tobacco, and 9,100 Missouri Pacific. The main cause for the quiet condition of affairs is the uncertainty surrounding the political situation. The recent victories of the free-silver men, and the belief that the Chicago convention will come out strongly for the white metal. Is also making traders on the bull side of the account more cautious. At the opening the Industrials were weak, and the railroad and internationl

shares firm. Sugar sold down on reports of another decline in raws abroad, and Tobacco was depressed on the unfavorable trade conditions. London bought St. Paul and Louisville and Nashville to a moderate extent at this time. After this little spurt there was a long period of dulness, but in the last hour the whole list strengthened, under the leadership of the Anthracites. The improvement was the result of the decisive defeat of the Butler bond bill in the Ways and Means Committee of the House; and the belief that gold shipments will be light in the immediate future. Rumors of an advance in anthracite coal, the favorable annual report of the Chicago and North-

CHICAGO PRODUCE MARKET.

CHICAGO PRODUCE MARKET.

CHICAGO June 4.—It was well along towards the close of the market when wheat displayed any indication of responding to the buil news. When firmness developed there was a full cent decline to be recovered before prices could show any advantage over the closing ones of yesterday. The weakness, which existed from the opening until long after moon, could be ascribed only to the discouragement of holders, and the old disposition on the part of buyers to sell out. July wheat opened at from 571-56 57-8651c., sold between 581-4 and 581-5c., and closed at 577-5c.—Inc. higher than yesterday. Cash wheat was 1907-100 EXECUTED AT THE DISPATCH PRINT.

Corn—The sentiment was distinctly 

bearish. General trade, however, in the absence of something more definited was inclined to rely on wheat for a motive. The course of the market, therefore, was downward early, and upward late in the day. July corn opened at 28c., sold between 23-3-8 and 28-5-8c., and closed at 28-1-46/23-3-8c., 1-1-46/23-8c. higher than yesterlay. The cash market was steady at yesterlay's prices.

Outs were without any cheering news or intelligence. Whilst railying a little on the better tone of the other grains late in the session, prices did not have a full recovery. July oats closed a shade under yesterday. Cash oats were steady. Provisions—The news from the yards this morning was better, although quite a liberal run of hogs came in, and prices of product were temporarily benefited by it. July pork and ribs each closed 24cc. higher than yesterday, and July lard 24-55c. higher.

The leading futures ranged as follows:

California Butterflies for Roth-

child.

(San Francisco Chronicle.)

George W. Dunn, the oldest and perhaps the most famous naturalist on the Pacine coast, some days ago received a letter from Baron de Rothschild asking him to go on a butterfly collecting tour for him. The Baron has a four-story building at Herz which he intends to fill with these beautiful vari-colored insects. He has specified the localities in California and Lower California from which he desires the butterflies. The Baron has learned, what is pretty well known in California, that the foothills of the Sierras fairly swarm with all kinds and sizes of butterflies at certain seasons of the year. The county of Mariposa, for instance, takes it name from the Spanish word meaning (San Francisco Chronicle.) t name from the Spanish word meaning butterfly, on account of the enermous numbers of these moving insects to be seen there. Mr. Dunn has been collecting specimens in California and elsewhere on the coast for forty-seven years.
